Connecting Information Technology to Prosperity

Tad Melton

*Associate Software Developer,
Virtual Hold Technology*

Tad Melton described himself as a high school graduate teaching guitar lessons to get by. Then he connected to an intensive 12-week training program that changed his life. Tad now works as a software developer with a 30% increase in earnings and benefits, providing stability in his life.

Eric Wise

*Chief Academic Officer,
The Software Guild*

ConxusNEO partner and Akron-based coding bootcamp The Software Guild accepted Tad into its program. Eric Wise explains, "Tad is a great example of a student who thrives in our educational environment. It's hard work, but pays off quickly."

Kevin Shinseki

*VP of Product Management,
Virtual Hold Technology*

Virtual Hold Technology thrives on hiring the right talent to serve as high-tech customer experience experts and global innovators. Kevin Shinseki explains, "Tad is an excellent example of how talent positions my company to be competitive in the marketplace."
